GREG JONES

React Developer
Project Manager

PROFILE

I am a creative and problem solver that is inspired by new ideas and . I am currently involved with web development through launch code and a side contracts with my clients.

I really enjoy taking an idea and turning it into something tangible. I aspire to work with D3.js or some other data visualization tools.

EDUCATION

2012-2016 **North Carolina Agricultural And Technical State Univ.**
Bachelors of Science in Health Managment.

2017-2018 **Launch Code - LC101**
Computer Programming bootcamp focusing on JavaScript and Python languages to build web apps.
Currently building app using Mongo, Express, React, Node that allows Users to explore, listen, and buy new music.

WORK EXPERIENCE

2017-2018 **Saint Luke's Health System**
- Logged over 1000 hours working with Epic Cadence register, schedule, and bill patients for physical therapy. I am also responsible for creating education materials for end user training.

2018
- **Startup Weekend Silicon Valley**
Became more familiar with startup ecosystem by working with a lean team to develop the concept "Investing with Friends". An investment club made more social and fun.

Startup Weekend Kansas City

2017 & 2018 Participated in a 54 hour startup weekend where I contributed in presenting "Pozitiv" a web content blocker. I learned how to use web crawlers, and create chrome extensions.

2018 **Startup Weekend Opioid Crisis Boston, Ma**
Startup Weekend focused on developing solutions for the Opioids. Mile$tone was a conditional cash transfer incentive that rewarded recovering addict for task like clean drug screens.
3rd Place Winner
