GREG JONES

React Developer
Project Manager

PROFILE

I am a creative and problem solver that is inspired by new ideas and . I am currently involved with web development through launch code and a side contracts with my clients.

I really enjoy taking an idea and turning it into something tangible. I aspire to work with D3.js or some other data visualization tools.

PROFESSIONAL NETWORKS

github.com/greg919617

www.linkedin.com/in/greg-jones-47544b88/

EDUCATION

2012-2016	**North Carolina Agricultural And Technical State Univ.** Bachelors of Science in Health Managment.
2017-2018	**Launch Code - LC101** Computer Programming bootcamp focusing on JavaScript and Python languages to build web apps. Currently building app using Mongo, Express, React, Node that allows Users to explore, listen, and buy new music.

WORK EXPERIENCE

2017-2018	**Launch Code Final Project** • Using Google Strategy Oauth, Google payment Api and react audio player to create a music platform for my client to market his music.
2018	• **Startup Weekend Silicon Valley** Became more familiar with startup ecosystem by working with a lean team to develop the concept "Investing with Friends". An investment club made more social and fun. **Startup Weekend Kansas City**
2017 & 2018	Participated in a 54 hour startup weekend where I contributed in presenting "Pozitiv" a web content blocker. I learned how to use web crawlers, and create chrome extensions.
2018	**Cerner Conversion Coach** 3rd Party Contractor working with Cerner Clients on Go-Lives. This entails problem solving the client side for Doctors, Nurses, Ambulatory.
2018	**Startup Weekend Opioid Crisis Boston, Ma** Startup Weekend focused on developing solutions for the current Opioid Crisis. My idea is a more efficient monitoring system for Mckesson pharmaceuticals.
